Rieck Construction, Inc.

Michael,

I wanted to take a moment and thank you for all your expertise on the purchase and remodel of my new commercial building. Michael worked tirelessly to find me a building, at the time of me taking ownership, Michael came in with a construction crew and completed what I thought would take two to three months in a little over a month. His entire focus was turning my building into a modern, up to date, energy efficient place to work. I am more than pleased with the job done and the value I received for my investment.

Sincerely,

John Ostaff
